The Plug-in Electric Vehicle Revolution: Are We Ready?

Wednesday, May 11 @ 1:30 PM

UC Irvine Student Center | Pacific Ballrooms

Electric vehicles are quickly becoming the hottest cars on the market, and their wider adoption presents an array of opportunities and challenges for our cities, utilities, businesses, and neighbors. CleanTech OC and UC Irvine are hosting a series of panel discussions featuring a variety of high-profile panelists that will explore what the wider adoption of plug-in electric vehicles means for our communities and California.

Following the program, CleanTech OC will host a networking reception featuring an exhibition of electric vehicles and companies involved in the industry.

Capacity is limited. To register, and for more information, please visit CleanTechOC.org.
